Second International Workshop on High-Performance Business Computing

March 26-27, 2020 Paderborn Center for Parallel Computing

jointly organized by

Call for Papers

The primary objective of this workshop is the presentation and discussion of the design, implementation, computational evaluation, and application of parallel algorithms in modern high-performance computing (HPC) environments for solving problems in business-oriented fields, including management science, operations research, data analytics, business administration, and economics.

We invite submissions related to solving computationally intensive and business-oriented problems in a broad range of application fields, including (but not limited to) transportation, traffic, logistics, production, finance, marketing, energy, health, and social networks.

Please, send your all inquiries, submissions (title and abstract with a maximum length of 400 words), and registrations to hpbc2020@campus.uni-paderborn.de.

Timeline

Submission of abstracts	08 February, 2020
Notification of acceptance	15 February, 2020
Deadline for registration	20 March, 2020

Further information

- No registration fees apply but travel expenses need to be covered by participants.

- Information on the workshop, including news, travel information, and program can be retrieved from

  https://pc2.uni-paderborn.de/go/hpbc2020

- Please, also note the EURO Practice of OR working group conference
  Challenges in the deployment of OR projects
